

AMENDMENT

Please amend the claims as follows.

Sub D1
C1
1. (Twice Amended) A substantially dustless animal feed premix composition in solid noncompacted granular form and having a high resistance to powdering, said composition comprising a physical admixture of granular fermentation solids comprising an antibiotic, said fermentation solids resulting from reduction of a fermentation broth including a fermentation medium in which an organism was cultured for producing the antibiotic, and further comprising at least one potency standardizer selected from the group consisting of an edible feed material and a mineral product.

Sub D3
C2
57. (Amended) A particulate, substantially dustless noncompacted animal feed supplement comprising fermentation solids comprising an antibiotic product of a fermentation process, said fermentation solids resulting from reduction of a fermentation broth including a fermentation medium in which an organism was cultured for producing the antibiotic, said animal feed supplement prepared by blending fermentation solids with an edible feed material and a mineral product to produce a mixture thereof.

Sub D4
C3
87. (Amended) A particulate, substantially dustless animal feed supplement comprising fermentation solids comprising an antibiotic product of a fermentation process, said animal feed supplement prepared by:
providing fermentation solids, said fermentation solids having antibiotic activity;
adding an antibiotic to said fermentation solids;
